Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (original) A method of electronically analyzing primarily financials of an entity, comprising:

receiving primarily financial inputs related to an entity; and

for at least one predetermined relationship: looking up which at least two variables are linked to said predetermined relationship, determining values of said at least two lined variables, evaluating said predetermined relationship using said determined values, selecting less than all interpretative paragraphs associated with said relationship based on results of said evaluating, and outputting said selected less than all paragraphs.

2. (original) The method of claim 1, wherein said selected less than all paragraphs are adapted to include at least part of said determined values.

3. (original) The method of claim 1, wherein said determining includes: computing each value of said at least two variables from at least one of said received inputs.

4. (original) The method of claim 1, wherein a relationship is not evaluated if a test of significance is not passed.

5. (original) The method of claim 1, wherein a relationship is not evaluated if user specified criteria are not fulfilled.

6. (original) The method of claim 1, wherein said relationship is part of a sequence of evaluated relationships and said sequence corresponds to a predetermined order.

7. (original) The method of claim 1, wherein said relationship is part of a sequence of evaluated relationships and said sequence conforms to criteria specified by a user.

8. (original) The method of claim 1, wherein said inputs includes inputs relating to a predetermined period and corresponding inputs related to a period preceding said predetermined period.

9. (original) The method of claim 1, wherein said inputs include inputs for said entity and corresponding inputs for an industry which includes said entity and/or corresponding inputs for a competitor of said entity or entity other than said entity.

10. (original) The method of claim 1, further comprising: outputting graphics illustrating said relationship.

11. (original) The method of claim 10, wherein an appearance of said graphics is dependent on which of said interpretive paragraphs are selected.

12. (original) The method of claim 1, wherein evaluating said relationship includes: comparing magnitude of said determined values with one another.

13. (original) The method of claim 1, wherein evaluating said relationship includes: comparing magnitudes of said determined values against predetermined levels.

14. (original) The method of claim 1, wherein evaluating said relationship includes: verifying that values of all said at least two linked variables have been evaluated.

15-21. (cancelled)

22. (original) A method for electronically analyzing primarily financials of an entity, comprising:

receiving primarily financial inputs related to an entity;

analyzing primarily financials of an entity, based on said inputs; and

outputting a textual description and interpretation of analyzed financial of said entity.

23. (cancelled)

24. (original) A method of electronically analyzing primarily financials of an entity, comprising:

receiving primarily financial inputs related to an entity; and

for at least on predetermined relationship: looking up which at least one variable is linked to said predetermined relationship, determining a value of said at

least one linked variable, evaluating said predetermined relationship using said determined value, selecting or not selecting at least one of at least one interpretative paragraph associated with said relationship based on results of said evaluating, and if at least one of said paragraphs has been selected, outputting said selected at least one of said paragraphs.

25-31. (cancelled)

32. (original) The method of claim 1, wherein said selected less than all paragraphs are no paragraphs and therefore zero paragraphs are outputted.

33. (cancelled)
